Date.....

TO WHOMSOEVER IT MAY CONCERN

This is to certify that Mr. Rahul Rawat was employed with SS (Engineers & Contractors) as a Junior Associate Developer from August 2023 to August 2024.

SS (Engineers & Contractors) operates as a marketplace connecting customers with contractors, alongside delivering technical projects through our in-house contractor team.

During his tenure, Rahul contributed on both sides of the business. On the internal product side, he worked on our Data Dashboards and Analytics platform and our Employee Portals, building and maintaining UI features, and adding end-to-end tests using Playwright to support the release process.

On the client delivery side, Rahul was part of the team engaged on a legacy application modernization project for one of our logistics clients. He ported a set of routes from one framework to another within an existing module federation setup and contributed to the shared authentication layer used across the migration. His work on this engagement was delivered without production incidents during rollout.

Throughout his time with us, Rahul demonstrated ownership of his work, a good grasp of frontend engineering practices, and a collaborative approach when working with the wider team. He was reliable in meeting timelines and handled feedback constructively.

We appreciate his contributions and wish him continued success in his career.

Sincerely,

M/s SATENDRA SINGH

Satendra Singh
